REPRESENTATIVE PRODUCT RANGE

Less damage. Easier handling. Better organization.

Built to support repeated transport,
cleaner storage and more reliable on-site handling

Buyers are not looking for just a box.

They are looking for fewer transport problems, easier storage and more reliable equipment handling.

- **Impact-resistant PE construction**
- **Built for repeated transport use**
- **Better handling and movement**
- **More organized storage and deployment**

Why this matters

Buyer concern	Key benefit
Damage risk	Better protection
Slow handling	Easier movement
Mixed storage	Better organization
Repeated use	More durable performance

A clearer case system helps teams move, store and deploy equipment with fewer headaches.

Built for real transport pressure

Practical case solutions for rental use,
project delivery and repeat supply needs

Rental Companies

- **Faster loading and unloading**
- **Better repeated-use protection**
- **Easier storage management**

Good for equipment that moves often and needs cleaner turnover.

AV Integrators

- **Cleaner rack transport**
- **Better project delivery**
- **More professional equipment presentation**

Suitable for system transport, project deployment and organized equipment handling.

Distributors & OEM Buyers

- **Clear product range**
- **Repeatable model selection**
- **Flexible customization options**

Built for more consistent supply and easier product matching.

Suggested product mix

- **PE U Boxes**
- **525 Rack Cabinets**
- **Mixer Console Transport Cases**
- **PE Flight Cases**
- **Beam & PAR Light Cases**
- **LED Display Boxes**

Buyer type and suggested direction

Buyer type	Suggested products
Rental Company	U Box / Flight Case / LED Box
AV Integrator	Rack Cabinet / Flight Case
Distributor	Standard Series
OEM Buyer	Repeatable Case Program

Send us your equipment list and dimensions for a quick recommendation.

PRODUCT SERIES OVERVIEW

One range. Multiple transport needs.

PE U Box
For microphones and compact AV equipment

525 Rack Cabinet
For amplifiers, power units and rack-mounted devices

PE Flight Case
For larger transport and touring use

Beam Light Box
For moving head beam lights

PAR Light Box
For PAR light transport

LED Display Box
For 500x500 and 1000x500 LED panels

Mixer Console Transport Cases
For amplifiers, mixers and related AV rack equipment

Flight Case, Lighting & LED Display Box

For larger transport, lighting protection and LED panel handling

PE Flight Case

- Stackable design
- Optional EVA lining
- Bare interior available
- Reinforced bottom board
- Custom internal partitions available

Built for larger transport and repeated touring use.

Beam & PAR Light Cases

- Suitable for beam lights and PAR light transport
- Application-based internal layouts
- Designed for cleaner storage and repeated movement

Good for stage lighting protection and easier handling.

LED Display Box

- Suitable for 500×500 and 1000×500 LED panels
- Different packing options based on panel thickness
- Designed for more organized transport and storage

Built for repeated panel transport and better protection.

Flight Case Sizes

Model	Inner Size (mm)	Weight
Large	1050×520×520	36.8kg
Medium	1050×520×420	33kg
Small	820×520x 520	31kg

LED Display Box Sizes

Model	Inner Size (mm)	Weight
Large Screen Box	1050×520×520	34.8kg
Small Screen Box	820×520×520	29kg

PE U Box, Rack Cabinet & Amplifier Cases

Standard formats for compact gear, rack-mounted systems and amplifier transport

PE U Box

- Multiple U sizes available
- Suitable for microphones and compact devices
- Foam / mesh lid options available

PE U Box Series

Model	Inner Size (mm)	Weight
260 Mid Depth – 2U	465×260×100	4kg
260 Mid Depth – 3U	465×260×145	4.5kg
390 Mid Depth – 2U	465×390×100	5.1kg
390 Mid Depth – 6U	465×390×280	7.2kg

Lid options: 1 foam + 1 mesh / double foam / double mesh

525 Rack Cabinet

- Front and rear double-opening doors
- Standard U rack structure
- Silent swivel casters with diagonal brakes
- Suitable for amplifiers and stage power equipment

525 Rack Cabinet Series

Model	Inner Size (mm)	Weight
8U	465 x 530 x 530	19kg
12U	465 x 530 x 540	21.3kg
14U	465 x 530 x 625	23.8kg
16U	465 x 530 x 720	26.4kg

Mixer Console Transport Cases Series

Model	Rack Size	Use Depth	Outer Size (Approx.)	Weight	Typical Use
6UK	6U	40cm	52 × 53 × 33.5cm	8.58kg	Mixers and amplifier transport
6UW	6U	40cm	52 × 63.5 × 36cm	9.7kg	Larger mixer transport
10UK	10U	40cm	52 × 53 × 52cm	11.7kg	Higher-capacity rack equipment transport

Why work with us

Practical support for product matching, repeat supply and project needs

Buyers often need more than a product list.

They need clearer matching, smoother follow-up and more practical support from inquiry to delivery

SerenWise Solutions focuses on practical case supply support for stage and AV equipment transport, helping buyers move faster from product selection to workable supply direction.

Clearer product matching

We help buyers narrow down the right case direction based on equipment type, dimensions and transport use.

Standard plus custom options

We support both standard product selection and application-based case matching for different project needs.

Repeat supply support

We understand the need for more consistent product direction across repeat orders, rental fleets and ongoing supply programs.

Practical communication

We focus on clear product information, straightforward coordination and faster next-step alignment.

Less back-and-forth. Better matching. Smoother supply support.

What buyers value

- Faster product matching
- Clearer case direction
- Flexible order support
- More consistent repeat supply

A more practical supply partner helps reduce delays and unnecessary revisions.

Support, supply & production backing

Practical coordination for product information, supply follow-up and documentation support

For many buyers, product selection is only the first step.

They also need clearer follow-up, supporting information and more reliable coordination before moving forward.

SerenWise Solutions supports this process with practical communication, supply coordination and manufacturing-backed documentation support when needed.

Product information support

We help buyers review product direction, dimensions, use scenarios and matching options more clearly.

Supply coordination

We support smoother follow-up on model selection, repeat orders and project-based supply needs.

Manufacturing-backed documentation

Supporting product-related materials, manufacturing documentation and available certificates can be coordinated when required.

Practical next-step support

From first inquiry to workable supply direction, we aim to reduce confusion, delays and unnecessary back-and-forth.

Clearer information. Better coordination. More reliable next steps.

Support available upon request

- Product photos
- Size and model information
- Packing details
- Manufacturing-related documentation
- Available supporting certificates
- Project and repeat-order coordination

Better support helps buyers move from product interest to workable supply decisions with more confidence.

Tell us your equipment. We will suggest the right case solution

Start with your dimensions, equipment type and use scenario

The right transport case starts with the right equipment information. Send us your basic requirements and we will recommend the most suitable case direction for your project, rental fleet or repeat supply needs.

What to send us

- **Equipment type**
- **Dimensions**
- **Quantity**
- **Use scenario**
- **Wheel / lining / partition requirements**
- **OEM request**

Good for

- **Rental fleets**
- **AV projects**
- **LED transport**
- **Lighting transport**
- **Repeat supply programs**

Ready for repeated transport. Ready for project delivery.
